

"Southern Oaks"  
By: Mabry Henderson

Southern live oaks live  
On the Eastern coast of the  
United States.  
They stand tall,  
Hosting animals.  
Eastern gray squirrels,  
Raccoons, and  
North American opossums

Live in their branches with an  
Invitation all year round - a  
Vacation destination for animals.  
Every fall, their leaves stay;

On most trees, they fall away.  
After a long day, live oaks sleep away,  
Keeping their animal friends  
Safe.

Student's Grade: Second Grade

Student's School: Blessed Sacrament Catholic School

Student's City/State: Savannah, Georgia

Student's Teacher: Mrs. Clarissa Ashley Taylor (Enrichment Teacher)
